

HPSDCSEP

Multi-output power supply units 12VDC
with adjustable output voltage
and galvanic separation between outputs

Features:

- galvanic isolation between the channel;
- independent voltage adjustment for each output (12–15VDC);
- each output protected by separate fuse (max. F1A);
- fuse failure indication (optical).

Code	Output voltage (adjustable)	Output current	Fuse	Dimensions W×H×D+D ₁ [± 2mm]
HPSDCSEP-12V4x1A	4 adjustable outputs (12–15VDC)	4 × 1A	1A	270×200×67+8
